It ain't time to roll on large plays when motherfuckers UP IN YOUR FACE.

There's too much drama. When shit's like that, True Player don't force his moves.

He ain't rude, neither. That only brings more motherfuckers UP IN YOUR FACE. True Player limits himself to little plays. Makes minor adjustments in the operation to tighten shit up.

He can still get over. Streets ain't 100% fucked, like when it's dark out.
